 Cooked is a Dark Comedy/Sitcom about the lives and fables of employees working at restaurant Shaq Blasterz. Main characters Kevin and Graham are witnesses to the crazy events happening in the restaurant. The working conditions are torturous and inhumane but Head Chef Marvin gets away with his evil doings. After a seemingly uninformative interview with Marvin and an odd first impression with the kitchen staff, Kevin and Graham are put into their first dinner service which is like nothing anyone has ever seen before... the Shaq Blasterz kitchen. Both have surreal PTSD dreams that night and wake in fear of their next shift.
