What NANNY WALBOURNE is all about:

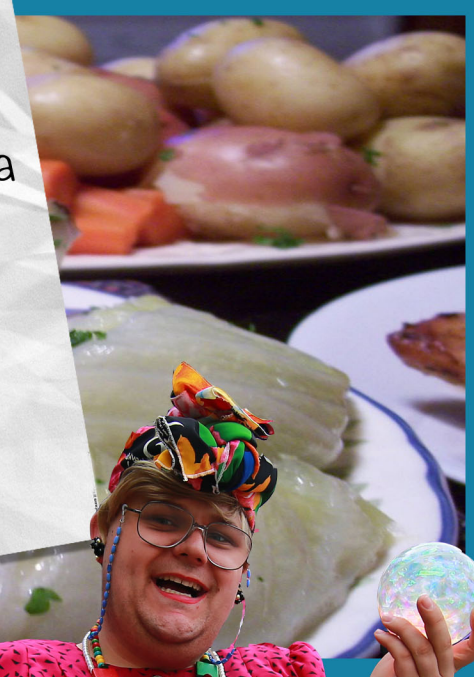

This show is about Agnes Walbourne, a proper Newfoundland woman who grew up in the bay but is now living in town.

She's recently retired, living with her husband Alowishous and has an empty nest. She now has all this free time to go about the town!!

Through her search for daily deals, Nanny ends up running into her family, relatives, close friends and even makes new ones.

Nanny Walbourne makes the daily effort to keep a traditional newfoundland home and family in the face of a modern-day city life.

Watch her take it all on with a chuckle!
